## **Environmental Policy**

Corporate Learning Consultants Ltd. (CLC) is committed to the constant improvement of its environmental performances as part of a commitment to sustainability and social responsibility. CLC will seek to encourage awareness of environmental responsibility among staff, while promoting and adopting environmental best practice in the management of its activities.

Accordingly, CLC intends to:

- adopt, wherever possible, established best practice in the field of environmental protection, adhere to all relevant codes of practice and take such additional measures as are considered necessary;
- make efficient use of resources, minimise waste production, and promote energy efficiency and water conservation methods;
- promote wherever possible, the use of sustainable methods of transport to minimise the number of single occupancy car journeys and reduce the environmental impact of other travel associated with our business;
- promote a purchasing policy that gives preference, as far as practical, to products and services which minimise human and physical impact in their manufacture, use and disposal;
- monitor the company's progress against these commitments;
- explore the use of renewable energies where possible.
